

SPYRIOT CYBER INTELLIGENCE SPECIALIST

DISCLAIMER

“This program is designed for educational and professional skill development purposes only and does not provide any government detective license or law-enforcement authority.”

This training program specially designed by combining

Ethical Hacking + Cyber Security + Cyber Crime Investigation

(100% Job Placement Assistance)

PROGRAM INTRODUCTION:

This practical-oriented program is designed to train students in Cyber Intelligence, OSINT Operations, Digital Investigation Techniques, Threat Intelligence, Criminal Profiling, and Real-World Cyber Crime Defence.

Students will learn how cyber criminals operate, how digital intelligence is collected, how online threats are identified, and how cybercrimes can be prevented through intelligence-driven investigations.

CAREER OPPORTUNITIES:

Students can prepare for roles such as:

Ethical Hacker, Cyber Security Analyst, Linux System Administrator, Digital Forensic Investigator, Threat Intelligence Analyst, Incident Response Analyst, Vulnerability Assessment Analyst, Security Consultant, Red Team Operator & Blue Team Analyst.

COURSE STRUCTURE:

Fee: ₹3,800 | Duration: 1 Month (Practical Training) | Timing: 09 PM (Mon-Fri)

Contents

Specialized Cyber Crime Investigation Techniques Included

Module 01: Foundations of Cyber Intelligence

- Intelligence Lifecycle & Information Collection Operations
- Cyber Threat Landscape & Criminal Behaviour Analysis
- Intelligence Assessment & Decision-Making Methodologies
- Strategic Cyber Investigation Framework Development

Module 02: OSINT Intelligence Operations

- Open-Source Intelligence Collection & Verification Techniques
- Advanced Search Intelligence & Information Discovery Operations
- Domain, Website & Infrastructure Intelligence Analysis
- Public Records & Digital Information Investigation

Module 03: Social Media Intelligence (SOCMINT)

- Social Media Intelligence Gathering & Behavioural Analysis
- Online Identity Verification & Profile Attribution Techniques
- Fake Profile Detection & Impersonation Investigation
- Social Network Mapping & Relationship Intelligence Analysis

Module 04: Digital Footprint Investigation

- Digital Identity Tracing & Online Presence Analysis
- Email, Username & Contact Intelligence Investigation
- Metadata Extraction & Digital Evidence Correlation
- Digital Footprint Mapping & Attribution Techniques

Module 05: Threats Intelligence Operation

- Threat Actor Profiling & Adversary Behaviour Analysis
- Indicator of Compromise (IOC) Intelligence Investigation
- Phishing, Scam & Fraud Infrastructure Intelligence Collection
- Threat Monitoring & Intelligence Correlation Operations

Module 06: Dark Web & Deep Web Intelligence

- Deep Web & Dark Web Intelligence Collection Techniques
- Data Breach Monitoring & Leak Intelligence Analysis
- Underground Threat Actor Tracking & Investigation
- Dark Web Risk Assessment & Threat Identification

Module 07: Cyber Fraud Intelligence

- Financial Fraud & Online Scam Investigation Techniques
- Fake Loan App & Investment Fraud Intelligence Analysis
- Social Media Fraud & Sextortion Investigation Operations
- Cyber Blackmail & Digital Extortion Intelligence Collection

Module 08: Real-World Cyber Crime Case Analysis

- Cyber Crime Case Assessment & Investigation Planning
- Digital Evidence Collection & Intelligence Documentation
- Incident Analysis & Intelligence Correlation Procedures
- Professional Investigation Reporting & Case Presentation

Final Practical Project

- Real-World Cyber Intelligence Investigation Exercise
- Threat Intelligence Report Development & Documentation
- Digital Profiling & Attribution Investigation Project
- Cyber Fraud Intelligence Case Analysis & Presentation

CERTIFICATION:

Certified Cyber Intelligence Specialist (CCIS)

ISO 9001:2015 Certification

Issued by Spyriot Security Pvt. Ltd.
